About IAIO

International Association for Integrated Oncology is a premier platform driving growth through community education and collaboration. IAIO stands to fight cancer through three core pillars: content, community, and Innovation to unite cancer care professionals to improve patient outcomes and advance cancer treatment globally.

IAIO operates on three core pillars

Content

Evidence-based medical education & expert-led insights

Community

A global, collaborative Oncology network

Innovation

Advancing research, digital learning, and clinical excellence

Mission

Integrating Cancer Communities & culminating Content

Vision

Eco System for enhanced Quality of Cancer Care - through Knowledge & Innovation

Objectives

IAIO connects oncology professionals worldwide, advances education through conferences and digital learning, supports research, and advocates for cancer awareness and patient care

Global Networking - Connect with oncology professionals worldwide for collaboration and knowledge exchange.

Education & Capacity Building - Enhance expertise through conferences, workshops, and digital learning initiatives.

Clinical Research & Publications - Support research and case-based publications to advance oncology practices.

Scientific Resources & Databases - Access a wealth of oncology knowledge through curated scientific data.

Cancer Advocacy & Support - Drive awareness, funding, and patient support programs for a healthier future.

What's covered in the IAIO Corporate Management Fee

- Academic & Financial Planning
- Venue & on-ground coordination
- Vendor Coordination and Management
- Official IAIO faculty communication
- Honorarium facilitation* (PD-led)
- Travel & stay coordination support*
- Technology Support
- Digital Marketing and Promotion
- CME documentation & reporting
- Branding & Visibility

Financial Governance & Transparency

- IAIO is a not-for-profit organization. Any amount retained by IAIO as corporate management fee is utilized solely for educational activities, cancer welfare initiatives, and the smooth functioning of the organization.
- The Program Director (PD) will have full authority to recommend and distribute honorarium to faculty members, in alignment with the approved program structure.
- Program Directors (PDs) may voluntarily contribute towards cancer education and cancer research initiatives under IAIO.

Financial Governance & Transparency

- Detailed financial information related to the program will be shared only with the respective Program Director.
- IAIO maintains confidentiality in line with professional ethics, industry expectations, and organizational governance standards.

A Recognized Academic Organization

IAIO is an academic oncology association, ensuring that every CME is driven by scientific credibility and institutional governance.

Structured Guidelines with Academic Liberty

IAIO's brand and academic guidelines provide consistency and credibility, while Executive Committee Members retain full liberty to plan and lead the scientific program.

Initial Educational Grant Support from IAIO

IAIO may extend exclusive Educational initial grant or seed support to ECM-led programs

Leadership & Academic Visibility

ECM members lead as Program Directors, creating a platform to disseminate high-quality scientific knowledge and strengthen professional leadership.

Complimentary & Priority Registrations

Clinical oncologists and IAIO members are offered complimentary or priority registration, ensuring the right academic audience and meaningful engagement.

IAIO Resource Library

Post-event recordings or presentations, subject to speaker and PD consent, are archived in the IAIO Resource Library for continued member education.

National & Global Academic Network

IAIO's established national and international academic network enables Executive Committee Members to conduct International Scientific Programs (ISP), participate in overseas meetings, and engage international Key Opinion Leaders (KOLs) thereby elevating the scientific quality and global relevance of physical meetings.

Established Audience & Industry Trust

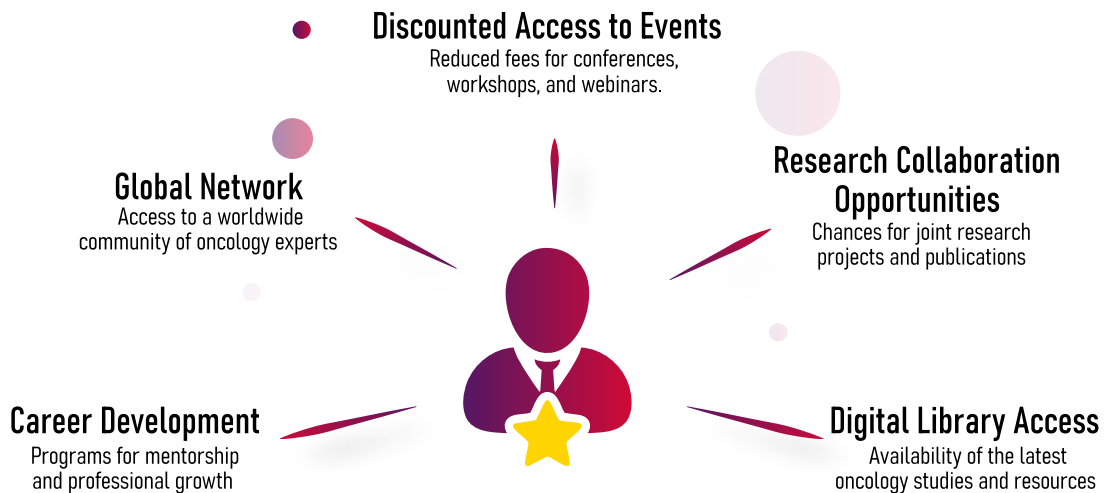

ECM members benefit from IAIO's existing oncology audience database and long standing relationships with industry partners.

Designed to Simplify ECM Responsibilities

IAIO provides end-to-end academic, operational, and documentation support, allowing ECM members to focus on scientific leadership.

Membership & Benefits

Becoming an IAIO member opens doors to a world of resources, collaboration opportunities, and professional development. We invite you to become a member of IAIO, whether as an individual, institution, or industry partner.
